newwave

To understand the unique value of Newwave and its singular place in the health IT marketplace, you need to look our collaborative 17-year journey with the Centers for Medicare & Medicaid Services (CMS). Our work combines a unique understanding of healthcare data and IT systems as well as the complex human eco-system of doctors, researchers, patients, and payors in which that technology is embedded. While we focus on providing enterprise system design, development, deployment, security, enhancement, and operations and maintenance, our solutions connect government to healthcare providers and healthcare consumers at a human scale, with cost-effective, leading-edge technology. We work to provide better health out- comes at a lower cost for all Americans.

NewWave Telecom & Technology (NewWave) and **Index Analytics (Index)** have joined forces and are doing business as INNOVATIVE FEDERAL SOLUTIONS under a Mentor-Protégé Agreement approved by the Small Business Administration (SBA). Together we have created a unique business enterprise providing best-in-class data and IT services to the federal government. The SBA program "enhances the development of the protégé" and maximizes the opportunities and contract vehicle options to federal clients looking for our unique capabilities.

Led by CEO Raghu Akkapeddi, the 8(a), HUBZone federal contractor Index has provided award-winning enterprise solutions to federal and state government agencies since 2012. With a team of experienced and dedicated personnel, Index's services place them at the intersection of data, information technology, and program support. Index is sought after for their data modernization, data integration and visualization, Data-as-a-Service (DaaS) and cloud migration capabilities, and their unique Salesforce deployment and optimization expertise.
